

SPECIFICATION KOZ CLEAT COVER FUNCTIONAL INTEGRITY

Application:	KOZ cleat covers are suitable (in addition to the existing cable cleat) to maintain a functional integrity for the cable cleat whenever a situation can occur where a loss of functional integrity is most likely. By using the cleat covers the KOZ cable cleats are in accordance with the relevant requirements of the Lloyd's Register Type Approval System.
Range:	The cleat covers are for all KOZ cable cleats and blocks available.
Material:	Available in stainless steel 304, 316 and Duplex (SS), Hot Dip Galvanized (HDG) and zinc plated (ZP).
Certifications:	All KOZ cable cleats and cable blocks are tested and certified in accordance with the Marine standards of the Lloyd's Register Type Approval System. Certificate nr. 15/30007.
